

STUDENT ACTIVITIES POLICY

Created: Sept 2012

Updated: Jan 2016

Review Date: Jan 2018

- 1 Prior to the commencement of each school year, the School will carefully identify the curricular and extra-curricular activities and events which are part of the official School program. The School will publish to parents and guardians the list of activities within the curricular and extra-curricular program of the School, through the School Calendar.
- 2 The School will employ appropriate risk management processes to ensure that the planning and supervision of those activities and events are carried out in a way which (in so far as is reasonably possible) meets the School's obligations.
