Fees in Advance Program

What is the Program?

The Tuition Fees in Advance Program enables parents to make a pre-payment of future tuition fees based on the current year's set fees. This can take the form of a series of annual prepayments or one lump sum prepayment of tuition fees to the school in advance.

Benefits to Parents

In return for the prepayment the school will fix the tuition fees component of total school fees for the duration of the prepayment period. Some of the benefits include:

- The Program is a simple means of investing to fund education costs.
- Future school tuition fees are known at the time of payment. Note: Annual Levies and optional activities not covered by tuition fees will still require payment in future years.
- A one-off discount for the first year of prepayment and fixed tuition fees thereafter at the rates applicable at the time, making it attractive in comparison with other interest-bearing investments.
- A refund of any payments that are still in advance at the end of the term will be made if the child leaves the School.

How the Program works

1. Parents (or other related persons or entities) may pay any number of years' tuition fees in advance by direct funds transfer, cheque or credit card (payment by credit card will attract a surcharge). Periodic Payment through Edstart is not permitted. The arrangements must be in place and funds received by the School by the 27th January 2021. The amount to be prepaid for each future year of the arrangement is the tuition fee applicable to the current year when the prepayment takes place.

For example, parents wishing to prepay the fees for a girl who is entering Year 7 in 2021 for the remainder of her time at St Aidan's would pay:

Year 7 \$22,879.40* + Year 8 \$22,120 + Year 9 \$22,120 + Year 10 \$22,120 + Year 11 \$22,120 + Year 12 \$22,120 totaling \$133,479.40**

*Current 2021 Year 7 fee less once-off semester one discount less once-off Annual payers discount of 3% plus levies at full rate

**Tuition fee component of future years fixed at Published 2021 rates. Levies and optional activities to be charged in addition each year.

Each year participating parents will receive a statement showing payment and effective discount received against current year tuition fees.

2. No further tuition fees will be required in each future term, as a participant in this program your tuition fees are fixed for the period of prepayment. However, levies and optional activities not covered by tuition fees will continue to be added to your school account on an annual basis and will need to be paid in full by the start of term 1 each year. Refer to detailed fee schedule for full details.
3. If the child for whom fees have been paid in advance leaves the school, a refund of any unutilised advance payments less any fees in lieu of notice or other outstanding charges will be given to the person or entity that made the advance payment. An adjustment to discounts issued for the final year of enrolment will be made if not completed. No other refunds will be made
4. In the event that other school levies, fees and charges become overdue, the school reserves the right to use remaining pre-paid fees to settle the amount overdue.
